instruction
manual

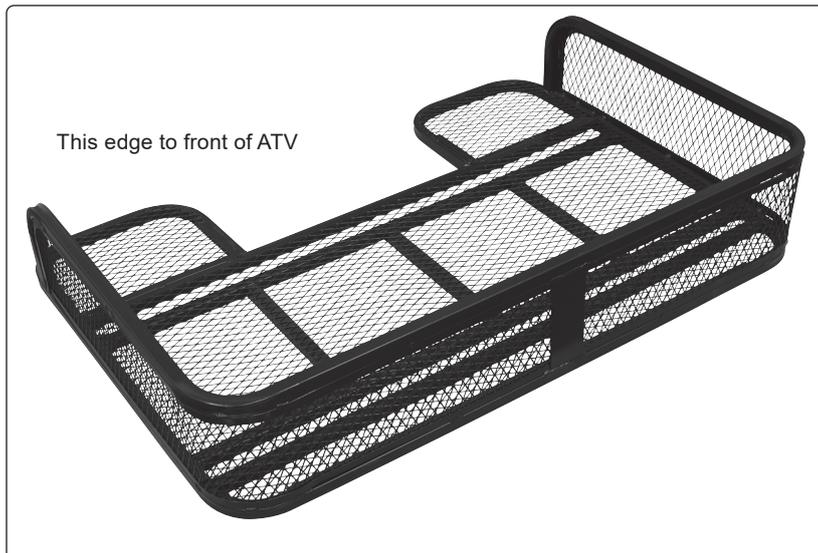

1. SAFETY

- ❑ **WARNING!** This product relies on the integrity of the existing structures on the ATV it is fitted to. It is the owner's responsibility to ensure that:
 - ✓ The structure of the ATV is sound and capable of withstanding the weight of the rack and its contents.
 - ✓ The ATV manufacturer's specification has been consulted to ensure that the ATV is safe to operate with cargo rack/s and their loads.
 - ✓ Ensure that the rack is fitted to the ATV using the supplied fittings and that the fittings are capable of supporting both rack and load.
 - ✓ Check rack fixings before each use.
 - ✓ Risk assess the load and where it is to be taken before use.
 - ✓ Remember that your ability to control the ATV by your body movements will be considerably reduced when carrying a load.
 - ✓ Racks and their loads should be fitted as close to the centre of gravity as possible. Loads should be secured as appropriate.
 - ✗ **DO NOT** use racks to carry passengers.

2. INTRODUCTION

Lightweight but sturdy mesh surface to avoid accumulation of dust and water. Small mesh design protects items from falling through. Constructed from high quality materials, capable of holding large items securely. Firmly attaches to ATV to prevent it falling off, even in demanding conditions. Ample storage space with short sides and open top, allowing larger objects to fit. Supplied with quick and easy fittings and fits onto most standard ATVs. Powder coated metal frame, ensuring high strength and good wear resistance to withstand rugged outdoor use.

3. INSTALLATION

- 3.1. The 4 U bolt fixings must be used around the box section structure of the rack and the rack assembly of the ATV.
- 3.2. Location of the 4 U bolt fixings is dependant on the design of the ATV. However they must be spaced so as to spread the load equally across the rack.

ENVIRONMENT PROTECTION

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.

Note: It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice.

Important: No Liability is accepted for incorrect use of this product.

Warranty: Guarantee is 12 months from purchase date, proof of which is required for any claim.
